Exercise: happy

5.0/5.0 points (graded)

ESTIMATED TIME TO COMPLETE: 3 minutes

Write a piece of Python code that prints out the string 'hello world' if the value of an integer variable, `happy`, is strictly greater than 2.

Do not ask for user input

Assume that variables are defined for you by our grader code. Simply write code assuming you know the values of the variables.

```
1 # Your code here
```

Press ESC then TAB or click outside of the code editor to exit
